Using [Scalemates](#) as a paint color/research resource:

For example, I was looking for who's paint products would match a color for an upcoming build. The closest color match that I found is FS 32246 (Federal Standard 595a). You'll find a dropdown listbox on the upper right portion of the Scalemates home page. If you depress the list, you will be presented with a myriad of options to choose from. Select "Paints" and enter "FS32246". The results will present a couple of colors to choose from. If you select Vallejo's 70.956 – Clear Orange the resulting page will show you a larger image of the color, however, keep scrolling. The resulting list covers all the Enamels, Acrylics, Lacquers...etc.. that closely match the color selected.

This should be your "go to" or starting resource for finding that special color that keeps eluding you.....
